**Subject:** NW Power and Conservation Council Panel discussion with Dennis

Dan and Dave

I was aware that Dennis will be attending a panel discussion with the NWCC Wednesday morning and it accrued to me to check the panelists list. The topic: **Panel presentation on reducing toxic contaminants in the Columbia River Basin**. Paul Lumley, CRITFC and Deane Osterman, Kalispel Tribe will both be on the panel and I'm certain they may want to catch time with Dennis to talk about WQ issues. I will make a good guess Dean will want to discuss the unresolved TMDL issue with the state and EPA's stance.

To be on the safe side I've asked Dave if he can provide a brief update, one pager with regard to the Kalispel concerns and where we are to date.

Thanks,

~Jim
